

Intesa (Kyndryl), SAP Concur, and Ccelera join forces to simplify and digitize expense management

Turin, 23 October 2023 - Intesa (Kyndryl), SAP Concur, and Ccelera, three well-established players in the IT landscape, have initiated a strategic collaboration to transform the expense management and receipts handling process, from creating travel requests to the crucial stage of preserving all documentation as required by regulations.

Through the integration of Intesa's compliant preservation service with SAP Concur's management software and Ccelera's expertise as a gold partner of SAP, the entire process is fully dematerialized and automated. Expense reports and receipts are automatically "extracted" from the software, prepared for digital archiving, and preserved in compliance with regulations.

Expense reports, containing financial and organizational data related to employee reimbursement for their business trips, are classified by regulations as "fiscally relevant documents" and, as such, are subject to a mandatory retention period of at least 10 years. The collaboration between these three entities will allow companies already using SAP Concur's management system to benefit from enhanced regulatory compliance, significantly streamlined processes, and more precise cash flow management.

"Innovation arises from collaboration," says Giuseppe Mariani, General Manager of Intesa, a Kyndryl Company. "The synergy between Intesa, SAP Concur, and Ccelera will bring tangible benefits to companies seeking solutions to manage the entire life cycle of their employees' expense reports. The automated compliant preservation of these fiscally relevant documents makes processes more efficient for both SAP and Intesa clients. This is the ultimate goal of technology. We hope this can be the beginning of a broader collaboration that simplifies the relationship between business management and regulatory compliance."

"We are thrilled to announce this significant collaboration, representing a significant step towards end-to-end automation in expense management. Thanks to the integration of our platform with Intesa's software and Ccelera's expertise, we can offer an extremely efficient process. This initiative not only streamlines the process but also ensures regulatory compliance, providing customers with a smarter and more reliable way to manage their financial documentation," added Andrea Piccinelli, Head of SAP Concur Italy.

"The completeness of cloud solutions is a crucial factor for businesses. With our expertise in SAP Concur and collaboration with Intesa, we can offer our customers an automated, fully digital, and paperless process that complies with Italian regulations," explains Emmanuele Prudeniano, Partner at Ccelera.

Intesa (Kyndryl), SAP Concur, and Ccelera are excited to introduce this innovative solution in a free webinar scheduled for 26/10 at 11:30. [You can find the registration link on this page.](#)

About Intesa, a Kyndryl Company

Intesa, a Kyndryl Company, is an Adaptive Solution Provider in the field of business process digitization and fiduciary services and is a certified B Corp. For over 35 years, we have been offering modular solutions adaptable to the needs of global markets. We have been providing compliant preservation services for over 20 years and are still among the top providers in terms of the number of preserved documents. We have been accredited conservators by AgID since 2014 and qualified conservators since 2023. Our services meet the requirements of digital regulations and ensure technological stability and security while considering business sustainability. Press contact: simonetta.desantis@intesa.it

About SAP Concur

SAP® Concur® is the leading global brand for integrated travel, expense, and invoice management. Driven by a relentless pursuit of simplifying and automating daily processes, the solutions guide employees through business travel, move authorized expenses directly into expense reports, and automate invoice approval. Through real-time data integration and the use of artificial intelligence to analyze transactions, companies can see what they are spending, improve compliance, and avoid potential budget blind spots. SAP Concur envisions a world where travel and expenses practically manage themselves, helping companies operate at their best every day. For more information, visit concur.com or the SAP Concur blog.

About Ccelera

Ccelera, part of the Arsenalia Group, is a consulting company that enables businesses to unlock their digital potential. We design the entire business experience through an innovative process that connects people and technology to enhance their interaction and results. Our team consists of experienced and passionate individuals with extensive knowledge of major technology transformation projects, from flow design to change management. Ccelera focuses on SAP solutions and can handle architectures from various angles, combining solid skills and continuous training to deliver value, quality, and prestige to its clients.
